  - Gorbachevska О.К.
  - October, 3 2013
Reform of state control and supervision system over the safety and quality of food in accordance with the WTO

- Procedure of Ukraine's accession to the WTO involves:
  - consideration of Ukraine's application to join the WTO;
  - multilateral negotiations with states - members of the Working Group and approval of the Draft Report;
  - harmonization of legislation with the standards and requirements of the WTO.
Positive effects of accession to the WTO

- increasing of Ukrainian goods access to the markets of WTO members;
- expanding of the products range offered to consumers in the market;
- encouraging of producers to upgrade production technology;
- prerequisites for initiation of consultations between Ukraine and the EU on concluding free trade agreements.
Optimization of the system of central bodies of executive power

- In accordance with the Decree of the President of Ukraine from 09.12.2010 № 1085 "On the optimization of central bodies of executive power" the State Veterinary and Phytosanitary Service of Ukraine is organised
In accordance with the Regulation on the State Veterinary and Phytosanitary Service of Ukraine, approved by the Presidential Decree from April 13, 2011 № 464, the State vetphyto service provides state control and state supervision of all food to ensure its safety and is the competent authority in the field of sanitary and phytosanitary measures.
